Based on information you have provided, your publishing options are shown below

Funder
Preferred

Gold Open Access

As a corresponding author affiliated with a Norwegian institution, I have the opportunity to publish open access. I do not have to pay an Article Publishing Charge (APC). Upon validation, the agreement between Norwegian institutions and Elsevier will cover the APC.

I can share my article in accordance with the user license that I select.

Further details on [Elsevier's agreement page](#) ↗.

Select Gold Open Access

With Gold Open Access, your final published article is immediately available to everyone.

*If the validation is not successful, an invoice for the total APC of EUR 3,320.00 (ex. VAT) will be sent directly to me.

Subscription

As a corresponding author affiliated to a Norwegian institution, I will publish my article under the subscription model, making my final published article immediately available to all subscribers.

Further details on [Elsevier's agreement page](#) ↗

[Elsevier's sharing policy](#) ↗ explains how I can share my accepted manuscript.

Select Subscription

- Based on the affiliation details, the author sees the Publishing Options. Gold OA option is preselected and we make it clear that the APC is covered as part of the agreement

- If the librarian at the institution rejects the author request in the Elsevier Portal, we also make it clear that the authors will receive a full price invoice

In case of OA, author selects the CC License

Select your user license

Please select your license. If you need to comply with a mandated license and the mandated license is not listed below, please visit our [Support Hub](#) for additional help.

CC BY 4.0

A license to permit readers to share and adapt your article for any purpose, even commercially.

[Read more about CC BY 4.0](#) ∨

CC BY-NC-ND 4.0

A license to permit readers to share all or part of your article in any medium or format for non-commercial purposes. Permission from Elsevier is required for the distribution of derivative versions of the article or for commercial use.
